

# FÉLIX ORAIN

## Web Developer

📞 +33778764454 🎬 felix.orain@gmail.com 🌐 felix-orain.com 🇫rance

## EXPERIENCE

### Front-End Web Developer

#### Lifo.AI

💻 2025 - Present

- Designed and integrated modular UI components using **React, TypeScript, and Tailwind**, adhering to the design system.
- Developed the landing page and application interfaces with **Next.js**.
- Implemented **automations** (emails, workflows) and resolved bugs.
- Collaborated in an agile team environment: sprints, code reviews, and product iterations.
- Tech Stack:** React, Next.js, TypeScript, Supabase, Tailwind.

### Web Integrator / Photographer

#### Freelance

💻 2020 - Currently

- Developed portfolio and e-commerce websites (Shopify, WooCommerce, WordPress, Wix) using HTML, CSS, JS.
- Published **2 photography books** through e-commerce, generating over 600 sales.
- Launched responsive interfaces optimized for SEO and conversions.

### Art Director & Web Contributor

#### YouTube

💻 2020 - 2024

- Art direction for the Wizzy Gang channel (**150,000 subscribers**): visual identity, branding, and digital content.
- Developed an interactive landing page for the film *Civilisation*, helping to attract **5,000 audience members**.
- Partial redesign of the WordPress site, integrating lightweight JS/CSS to enhance UX, collaborating with a developer.
- Created design systems to standardize digital assets across web and social media.

## EDUCATION

### Web Development Bootcamp

#### Le Wagon

- Intensive learning in full-stack development using Ruby on Rails, JavaScript, HTML/CSS, and PostgreSQL.
- Worked in a team using Git, pair programming, and agile methodologies.
- Designed, deployed, and presented full web applications under real-world conditions.

### Front-End Training in React, Tailwind, TypeScript, and Next.js

#### Udemy

- Advanced React and Next skills (hooks, state management, components, routing) with TypeScript.
- Created modern, responsive interfaces with Tailwind CSS.
- Developed server-side applications with Next.js and managed global state with Redux.

### Bachelor's in Applied Foreign Languages

#### University of Rennes 2

- Fluent in English, Italian, and French.
- Trained in international business and digital communication strategies.

## PROJECTS

### Lifo.AI (MVP) | TypeScript, Next.js, Supabase

🔗 <https://lifo-app.com/>

- MVP as part of the team: stock management app powered by AI.

### Interactive GIS Application | React, Leaflet

🔗 <https://data-visualizer-mocha.vercel.app/>

- Interactive map allowing zone tracing, filtering, and real-time data retrieval. Enhanced visualization through filters and graphs.

### Movie Watchlist | Built with React, Tailwind, and TMDB API

🔗 <https://movies-watchlist.vercel.app/>

- Developed a movie management application featuring lists, ratings, comments, and integrated TMDB data.

## PROFILE

I am a fullstack web developer specializing in **React, Next.js, and TypeScript**. I am passionate about creating high-performance, user-centered interfaces. With experience in startups and freelancing, I design and deploy responsive web applications integrated into agile workflows. I am looking to join a technical team where I can contribute to innovative projects while continuing to grow professionally.
